Dear sir:

This is my fourth email to you in more than 1 year. Please fulfill your legal, moral, and constitutional duty by thoroughly investigating the alleged distribution, sale, possession, and use of illegal methamphetamine speed and also some illegal cocaine that has been routinely admitted by FBI SID employees at the alleged FBI SID Ballston metro building, allegedly very close to the Ballston metro station in Arlington, Virginia. There is also alleged distribution, sale, possession, and use of illegal nonprescription prozac by FBI SID employees at the same location.

I don't know the exact location of the alleged FBI SID Ballston metro building, and if you discover it please email me with the exact info. I'm guessing it is near and probably a little to the east of the Ballston metro station in Arlington, Virginia, but I don't know. While I don't know the exact location of the FBI SID building, I am almost 100% certain that the people identifying themselves as FBI SID and describing themselves as working at the FBI SID building routinely sell, buy, possess, and use illegal drugs.

In the more than 1 1/2 years since I first complained to the Virginia State Police, the routinely alleged illegal methamphetamine speed epidemic at the alleged FBI SID Ballston metro building in Arlington, VA that I first informed you about on 9/19/08 has continued unstopped, despite my informing the Arlington County police, the Virginia State Police, the DEA, the ATF, and the FBI about this routinely alleged illegal methamphetamine speed epidemic. (Internet documentation of my complaints to the appropriate legal authorities can be found at [http://www.bustjaypendelton.com/bust\\_jay\\_pendelton.htm#Complaints](http://www.bustjaypendelton.com/bust_jay_pendelton.htm#Complaints) .)

The alleged illegal drug epidemic at the FBI SID building continues today about the same as it did on 10/5/09, except that FBI SID worker alias Ditsy2 (allegedly in her twenties, allegedly around 6 feet tall, and allegedly addicted to cocaine) has allegedly taken a larger role in supplying FBI SID illegal drug addict Jay Pendelton with illegal drugs. (She is also alleged by Jay Pendelton to have been previously busted for drugs in Jan. 2010, but Jay's allegation is unconfirmed.)

I earlier sent you 3 emails complaining about the same problem:

- 1) email #1, sent 9/19/08,
- 2) email #2, sent 1/31/09, and
- 3) email #3, sent 10/5/09.

Here is Internet documentation of all 3 emails.

Note: I repeatedly tried to email the Virginia State Police Drug Enforcement Unit directly by sending this email to [bcissd@vsp.virginia.gov](mailto:bcissd@vsp.virginia.gov). PLEASE FORWARD AN ELECTRONIC AND/OR HARDCOPY OF THIS EMAIL TO THE VIRGINIA STATE POLICE DRUG ENFORCEMENT UNIT AND VERIFY THAT THEY RECEIVE IT. THANKS.

Dear sir:

This is my third email to you in more than 1 year. Please fulfill your legal, moral, and constitutional duty by thoroughly investigating the alleged distribution, sale, possession, and use of illegal methamphetamine speed and also some illegal cocaine that has been routinely admitted by FBI SID employees at the alleged FBI SID Ballston metro building, allegedly on 5th street very close to the Ballston metro station in Arlington, Virginia. There is also alleged distribution, sale, possession, and use of

illegal nonprescription prozac by FBI SID employees at the same location.

I previously sent you an email on 1/31/09. Here is Internet documentation of that email:

[http://www.bustjaypendelton.com/1-31-09\\_email\\_to\\_the\\_virginia\\_state\\_police.pdf](http://www.bustjaypendelton.com/1-31-09_email_to_the_virginia_state_police.pdf)

I also included a copy my 1/31/09 email to you at the end of this email. Please read my prior 1/31/09 email to you in addition to reading this email.

Earlier, I also initially sent you an email on 9/19/08 reporting numerous allegations spanning more than 1 year of a rampant illegal methamphetamine speed drug epidemic at the FBI SID building in Arlington, VA. Here is Internet documentation of that email:

[http://www.bustjaypendelton.com/9-19-08\\_email\\_to\\_the\\_virginia\\_state\\_police.pdf](http://www.bustjaypendelton.com/9-19-08_email_to_the_virginia_state_police.pdf)

In the 8 months since my last email to you on 1/31/09, and the more than 1 year since I first wrote to you on 9/19/08, I have some additional news, some bad news, and a little good news to report.

First, the routinely alleged illegal methamphetamine speed epidemic at the alleged FBI SID Ballston metro building allegedly on 5th street within 2 blocks of the Ballston metro station in Arlington, VA that I first informed you about on 9/19/08 has continued unstopped, despite my informing the Arlington County police, the Virginia State Police, and the DEA about this routinely alleged illegal methamphetamine speed epidemic. (Internet documentation of my complaints to the appropriate legal authorities can be found at

[http://www.bustjaypendelton.com/bust\\_jay\\_pendelton.htm#Complaints](http://www.bustjaypendelton.com/bust_jay_pendelton.htm#Complaints) .)

In the last 8 months, alias Mooch, a white female, probably in her thirties, allegedly around 6'2", and allegedly now a self-confident manager at the FBI SID, has allegedly taken a much more prominent role in the alleged illegal distribution and/or sale of illegal drugs at the FBI SID building (and maybe even elsewhere as well). Previously, the illegal drug dealing was allegedly handled by alias Hitler, who, as an alleged powerful FBI SID manager, allegedly managed to corner much of the drug dealing market at the FBI SID building, possibly by using his clout to replace a more chaotic system of illegal free market drug distribution at his FBI SID building with a more orderly but blatantly illegal system of a FBI SID manager supplying illegal drugs to his drug-addicted workers. Maybe alias Hitler totally handed over his alleged drug dealing work to alias Mooch, or maybe he just handed over some of the drug distribution work.

Here are 3 direct quotes from FBI SID workers concerning alias Mooch's alleged drug dealing:

1. At 5:57am 10/5/09, FBI SID worker alias B2 claimed "[FBI SID manager alias] Hitler handed the [illegal FBI SID drug dealing] business off to Mooch and that's all there is to it."
2. At 6:21am 10/5/09 B2's mean coworker, Jay Pendelton said "Yes fire B2 for ratting out Jay's friend Mooch". [Note that Jay Pendelton doesn't deny B2's story. He just complains that B2 made the claim first.] [B2 has allegedly worked with Jay Pendelton for more than 20 years, and I doubt Jay Pendelton actually wants to get B2 fired.]
3. At 6:22am 10/5/09, FBI SID worker alias B2 dryly noted that "He [Jay Pendelton] never pays her [Mooch for the illegal drugs] anyway."

FYI, the alleged drug dealing at the FBI SID building has in the past usually allegedly occurred on the weekends, between Friday and Sunday night. Saturday night is allegedly the FBI SID party night for some FBI SID workers, and its a good bet that many people awake at the FBI SID building between 12 midnight Saturday night and 6am Sunday morning

are probably high are drugs.

Here's the bad news. In addition to the routinely alleged illegal methamphetamine speed epidemic at the alleged FBI SID Ballston metro building, there is also routinely alleged cocaine use at the FBI SID building, almost always after hours. There have even been allegations of cocaine sometimes being swapped for oral sex at the FBI SID building. (There is also an alleged predictable HIV infection epidemic in addition to an alleged illegal drug use epidemic at the FBI SID building.) There have also been allegations of the alleged nonprescription use of prescription prozac that has been allegedly purchased without a valid doctors prescription. I have also heard repeated allegations, maybe true or maybe false, that the FBI SID found a source of free drugs at the DEA, presumably from DEA stockpiles of confiscated illegal drugs. If these repeated allegations are true, it is unknown whether or not this is alleged DEA corruption or a very slow DEA drug sting. More recently, I have heard allegations that U.S. government FBI SID money is being used to pay for some of the alleged illegal drugs at the FBI SID building. (I'm unsure if these allegations are true or merely wishful thinking lies from FBI SID illegal drug addicts.) Today at 8:15am 10/5/09 B2 claimed that "Mooch has the same problem" of uncollected drug sale debt owed to her by Jay Pendelton, the same problem alias Hitler allegedly had earlier.

Here's the good news. First, according to FBI SID workers Jay Pendelton and B2, the occasional presence of a Virginia state police car outside of the alleged FBI SID Ballston metro building has at least once or twice caused Jay Pendelton some extra worry. And second, I've been able to document a little better just what the hell the top secret FBI SID is up to by improving my documentation of the top-secret beam weapon technology that they use. My improved documentation of the FBI SID is at <http://www.StopBeamWeapons.com>. (FYI, you might be pleasantly surprised by the info about Dazer Lasers. Dazer Lasers are real beam weapon stun guns being sold to police that are rolling off a new assembly line starting around Feb. 2010. The rest of the documentation at <http://www.StopBeamWeapons.com> is truly amazing, but true.)

I also have one caution for you: If you experience any unusual hi-tech electronic harassment (including sound harassment) while investigating or considering investigating the FBI SID, please study <http://www.StopBeamWeapons.com> carefully. Also please remember that you and your police department have the power and duty to enforce Virginia state law against any and all criminals in Virginia, including any FBI SID workers engaged in any illegal activity.

Sincerely,

- Ed Harding

[http://www.bustjaypendelton.com/1-31-09\\_email\\_to\\_the\\_virginia\\_state\\_police.pdf](http://www.bustjaypendelton.com/1-31-09_email_to_the_virginia_state_police.pdf)

Subject: BustJayPendelton.com and alleged methamphetamine speed drug dealing and drug use at the FBI SID Ballston metro building. -- Jan. 31, 2009.  
To: The Virginia State Police Drug Enforcement Unit  
From: Ed Harding, webmaster of BustJayPendelton.com

Dear sir:

On Sept. 19, 2008, I sent you an email reporting numerous allegations spanning more than 1 year of a rampant illegal methamphetamine speed drug epidemic at the FBI SID building in Arlington, VA. I also posted a copy of this email on the Internet at  
[http://www.bustjaypendelton.com/9-19-08\\_email\\_to\\_the\\_virginia\\_state\\_police.pdf](http://www.bustjaypendelton.com/9-19-08_email_to_the_virginia_state_police.pdf).

While I understand that you probably receive numerous complaints from many sources about alleged illegal drug dealing in Virginia and that you might have a backlog of alleged crimes to investigate, and I also understand that police investigating serious accusations of other police misconduct might not be your top priority, I would like to note for the record that 4 months have passed since my last email to you and the alleged blatantly illegal open methamphetamine speed drug dealing and illegal drug use at the FBI SID Ballston metro building in Arlington, VA continues unstopped.

Since 9/19/08, there have allegedly been some illegal drug sale bill collection issues at the FBI SID Ballston metro building. Apparently, at up to \$10 or more per hit of illegal methamphetamine speed, illegally supplied on credit, Jay Pendelton and some others have accumulated a probably unpayable debt to alias Hitler, an alleged major FBI SID drug dealer and boss, who has allegedly supplied more illegal methamphetamine speed to FBI SID workers than he can collect payment for. Alias Hitler might have since written off and/or stopped trying to collect some of the uncollectable illegal methamphetamine speed drug purchaser's debt to him.

I also have one technical issue to report. The website page [http://www.empowermentresources.com/cointelpro\\_2005.html](http://www.empowermentresources.com/cointelpro_2005.html) that is displayed as the bottom part of <http://www.BustJayPendelton.com> was hacked by the FBI SID around Jan. 7-10, 2009. It should be safe to view now, but you might see a google warning message until they honor my request to recertify <http://www.empowermentresources.com> as a currently unhacked website.

Since the blatantly illegal sale, possession, distribution, and use of illegal methamphetamine speed allegedly continues unstopped at the FBI SID, I'm including my initial Sept. 19, 2008 email letter to you. It remains an accurate concise alleged drug crimes report to the Virginia State Police Drug Enforcement Unit.

"It is my sad duty to report numerous allegations spanning more than 1 year of a rampant illegal methamphetamine speed epidemic at the FBI SID building in Arlington, VA, including the routine and open sale, possession, and use of illegal methamphetamine speed by Jay Pendelton, alias B2, and others at the FBI SID Ballston metro building. There have also been allegations of the sale, possession, and use of other illegal drugs, particularly nonprescription prozac. Rare allegations of cocaine use at the building have also been made.

The full scope of the problem is described in detail at BustJayPendelton.com. I am almost 100% certain that the alleged methamphetamine speed epidemic is in fact occurring at Jay Pendelton's workplace. However, because his work and agency is classified or top secret in Northern Virginia, I am not certain of the exact building location. Also, while the MKULTRA-style or black ops style perps have routinely called themselves FBI SID from between 2005-2008 [now 2005-2009], it is possible that their classified agency might be misidentifying themselves on purpose to retain their anonymity.

Please carefully read BustJayPendelton.com and please fulfill your legal and constitutional duties by enforcing Virginia's drug laws at the FBI SID building. Sincerely,

- Ed Harding
